FREEDOM PUBLIC LIBRARY

1990

The year 1990 has again been a busy one with a dramatic increase in the number of people using the Library's facilities. In January we began a book club, which meets the last Monday of each month, and is currently reading and discussing a series of books about various ethnic groups called "America's Many Voices". A second program called "Got That Reading Rhythm", which featured books about music and related subjects, involved young people in a summer reading project. The Story Hour for pre-schoolers continues to make the Library a lively place on Wednesday mornings. The children who attend are delighted with their newly acquired child-sized chairs and table. In addition to these Library programs, a number of other groups such as the Friends of the Library, Freedom Water Precinct, and the Directors of the Lakeview Cemetery Association have used the building for their meetings.

The Trustees wish to thank the friends of the Library for their financial support, which enables us to increase our book purchases, and for sponsoring the Story Teller who entertained a large group of children and their parents during Old Home Week. We especially want to express our appreciation to those volunteers who come each week to assist our librarian with cataloguing, pocketing, covering, mending, and shelving books, and all the other chores essential to the running of the Library. Thank you.

SELECTMEN'S REPORTS

All of us are aware of the problems facing this nation. The war in the Gulf and economic recession are but two of the many problems of national magnitude that effect all of us.

But I would like this message to address the problems and changes within Freedom. Changes imposed by the various boards that are responsible for the policy and direction of this Town, now and in the immediate future.

I have attempted to list 1990 changes in order of significance.

United Appraisal Company established 100% value on 2745 pieces of property. 130 of these property owners were dissatisfied with the new value and applied to the Selectmen for further judgement. 58 of these were granted an adjustment, the remaining 72 were denied. The final decision was made on January 7, 1991. The Town has a substantial investment in time and money to do what was necessary to finish the appeals process begun by United Appraisal in the spring of 1990.

A new septage facility for Freedom has been approved by the State and will open in the spring.

The Town Hall & Office has new combination windows, the Town Office also has new doors and an entrance porch.

In the spring of 1990 current use was a popular alternative to approximately 80 citizens who sought tax relief.

Freedom along with Ossipee and Effingham are forming a commission to oversee the Ossipee River Dam and insure proper lake level to protect lakefront property values.

1990 was indeed a busy year - 1991 looms equally challenging. Freedom is competing with 50 other Towns to qualify for \$10,000 of matching grant to be used at our landfill. This grant will be awarded to communities with most original and efficient recycling plans.

The Selectmen are working on a plan to make flood insurance available to owners of property subject to flooding. Also with voter consent to start an ambitious road sealing project to save our roads.

In closing I would like to give special thanks to board members and all others who voluntarily demonstrate their commitment faithfully to this community, and I urge those who don't serve, and could, to join us in keeping Freedom a place we are all proud to call home.

Richard J. Goff
Selectman

To the People of Freedom

When I ended my report last year I made the statement, “thank you for the chance to serve”.

Well this marks the beginning of my third year and the assumption of Chairman of the Board. I for one will be attempting to further increase the ease of operation and the completeness of records so that information is on hand and readily available.

Great strides have been made in such items as Yield Tax, Exemptions, both Veterans and Elderly, a personnel file has been initiated, Boat Tax procedures have been improved and a Welfare Program is in the offing.

Cooperation between departments has been great and our quarterly meetings will continue as they do keep everyone informed.

The Town had been growing for years, but their had been a lack of personnel to perform all the necessary functions, this has taken a turn for the better, thanks to our voters helping us through.

It is possible that another part-time person will be necessary in the near future.

I should like to commend all of our people for a job well done this year, they have been a pleasure to work with. I would like to extend a welcome to all residents to come in and visit with us and observe some of the changes that have been done with you in mind.

Thank you,

William O. Cutler
Selectman

To the People of Freedom

With the help of many others I made it through the first year. It has been a busy, interesting and challenging year.

I have attended many meetings and seminars and read voluminous rules, regulations, and articles. Some stayed some didn't. It is a continual learning process keeping up to date with the changes being made. I'll continue to do my best in doing so.

Reevaluation, current use, and the budget process are completed for the year. As we look to the year ahead there are many more issues with which we will become involved. The results and solutions, to which, we hope will be to your satisfaction.

Although we see a recent downturn in our economy nation wide, our town continues to experience growth. Many procedures have changed and are in place to help the town progress while maintaining our country style of life.

There are many positions in our town government, on committees or boards, that our citizens could fill. The town has many experienced and knowledgeable people who could use their expertise to assist the town. We ask that those who are interested let us know so we can have a list to work from.

I am looking forward to the next two years and thank you for the chance to serve. I am available either at the office or at home, to be of help or answer your questions.

Sincerely,
John B. Woodard
Selectman

FIRE CHIEF'S REPORT

This past year the Freedom Firemen have spent many hours training with State Fire Instructors and Mutual Aid Fire Departments. Ten of our Firemen have furthered their education with the State Certification Hazardous Material Awareness Course.

A 1500 gallon tank replaced the 16 year old tank on Tank One, increasing our water capacity by 500 gallons.

We would like to thank the people who have spent countless number of hours volunteering their time and efforts for the Freedom Fire Department. Your continuous support is very much appreciated.

REPORT OF THE CHIEF OF POLICE

To the Selectmen of Freedom and The Citizens of the Town:

The year 1990 is over, and as we look back we saw alot of changes. With each new year we see an increasing number of calls for service, and 1990 was no exception. The type of calls we most frequently answer are Motor Vehicle Accidents, Burglaries, and alarms.

Our Motor Vehicle activity showed the largest increase for 1990, up 25% over 1989, with speeding complaints being up 30%.

The training a Police Officer receives is one of the most important aspects of their job. In 1990 each Officer of the Freedom Police Department received well over the State requirements with training such as self defense with the PR24 Baton, Domestic Violence and motor vehicle & criminal law updates.

As we look to the year ahead we hope to increase even more the amount of training each Officer will receive so we may better serve the people of Freedom.

As the Police Chief and a resident of Freedom I take this opportunity to thank my Officers, all the department heads and Town Officials for their cooperation and assistance this past year.

Respectfully yours,
Jack Pyne
Chief of Police

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

During Calendar Year 1990, the State of New Hampshire experienced an average number of wildfires. The three leading causes of these wildfires were fires kindled without a fire permit from the Forest Fire Warden, permit fires that escaped control and rekindled fires. All of these fires are preventable, but **ONLY** with your help.

Please help your town and state forest fire officials with forest fire prevention. New Hampshire State Law (RSA 224:27 II) requires that, "No person, firm or corporation shall kindle or cause to be kindled any fire or burn or cause to be burned any material in the open, except when the ground is covered with snow, **without first obtaining a written fire permit from the Forest Fire Warden of the town where the burning is to be done.**"

Violations of RSA 224:27 II and the other burning laws of the State of New Hampshire are misdemeanors punishable by fines of up to \$1,000 and/or a year in jail and you are also liable for all fire suppression costs.

The State of New Hampshire, Division of Forests and Lands assisted many towns in wildland fire suppression during 1990, including a 262 acre fire in Moultonboro and several fires in Hooksett.

In 1990, the New Hampshire Division of Forests and Lands trained 844 local Wardens and Deputy Wardens in the Incident Command System (ICS), and incident management system for all types of emergencies. In 1991, Wardens will be trained in the use of Class A foam in wildfire suppression.

If you have any questions regarding New Hampshire forest fire laws, please contact your local Forest Fire Warden, State Forest Ranger, or the Division of Forests and Lands at 271-2217.

CONSERVATION COMMISSION REPORT 1990

The Conservation Commission meets almost every month. Meeting times are posted at the Town Hall. Citizens interested in conservation concerns are invited to join us at any time.

The commission has identified the following issues as key conservation priorities:

1. Monitoring the process for dredge and fill permits administered by the New Hampshire Wetlands Board.
2. Preserving the quality of our natural wetlands and water bodies.
3. Development of an aquifer protection ordinance for the Town of Freedom.
4. Providing assistance for property owners seeking to designate land for conservation purposes.

We have made every attempt to familiarize ourselves with the details of each dredge and fill permit application. In many cases, a site inspection has been conducted. In making our recommendations to the State Wetlands Board, we have kept the preservation of water quality as our highest priority.

Please be aware that Freedom property owners are required to obtain permits prior to a landowner or contractor beginning work in or adjacent to a wetland area (within 10 feet). This includes the construction of culverts, bridges, docks and similar structures. Applications can be obtained from the Town Clerk. We stand ready to assist you with any questions or concerns.

The commission has also investigated several instances where citizens have indicated concern about wetlands projects they have observed. We are grateful for citizen involvement in our attempts to conserve our natural environment.

We are proceeding with our plans to work with the State of New Hampshire's lay monitoring system to conduct some water testing this summer. Our plans call for testing in Cold Brook and Square Brook. This should give our town a good idea of the relative quality of some of the major sources of water.

The state did a water quality study on Lake Ossipee in 1987. The results were somewhat reassuring. Loon Lake will be going through a water quality study by the State during this upcoming summer of 1991.

In order to carry through our mandate for overseeing the protection of water and groundwater, we are currently investigating the feasibility of an aquifer protection ordinance. We will make the results of our investigations public so that citizens can be familiar with our proposal.

We are grateful for the spirit of cooperation which is being encouraged among all of the committees, boards and departments in Freedom, and we look forward to continuing to work for the benefit of the Town of Freedom during the year ahead.

CODES/ZONING OFFICER REPORT

Once again I am grateful for this opportunity to have served the Town in the capacity of its codes/zoning officer.

I would report that 200+ building permits were issued during 1990, eight of which were new homes. The remainder were for remodeling, additions, decks, sheds, sunrooms, etc. 75% of these were issued to site owners at the Totem Pole Park Campgrounds.

In addition a fair number of septic designs were reviewed for Town criteria.

The Town's adoption of the electrical and plumbing codes this past spring has met with positive results. I am delighted to find how receptive home owners and contractors have been to comply with these codes in order to insure for their selves and their client's sound installation practices.

For myself, I continue to be a part of the New Hampshire Building Association and attend their bi-monthly meetings. I also have attended a number of training seminars sponsored by the N.H.B.O.A., thus enabling me to be better equipped to serve you, the townspeople.

I trust this year of 1991 will be as good as this past year.

Paul Dorian

REPORT OF TOWN AUDITOR

I certify that I have examined the accounts of the Selectmen, Tax Collector, Town Clerk, Treasurer and Trustee of the Trust Funds and found that the sums collected and paid are in agreement with the respective entries for all accounts.

In late September 1990 the Department of Revenue Administration adopted a new standardized modified accrual accounting system beginning January 1, 1991. All towns will be required to report financial information in the new format. This will require more extensive bookkeeping than the previous cash basis and will require additional training of personnel or the use of outside services.

We have changed over the computer accounting codes and are in the process of introducing improved vendor accounting and other payables.

During the past year office bookkeeping was extensively involved in updating the town's property records. This was necessary to provide correct information to the reappraisal firm.

Tax Collector records were reviewed and uncollectable taxes written off.

THE CENTER of HOPE

Area Agency for Region XI
BOX 1400 CONWAY, NH 03818 CALL 356-6921

January 22, 1991

To the Citizens of Freedom:

The Board of Directors of The Center of Hope, Inc./Area Agency - Region XI has made the decision not to request financial support on behalf of our transportation program for 1991. This decision is made with acknowledgment of the strong support for our program over the years, as well as the current economy.

The Town of Freedom has been very generous, helping us to provide transportation to jobs, community services and friends. Our commitment to transportation services continues. We will work to offset the lack of Town funds in 1991 through fund raising and economies in other areas of Agency operation which will not affect services.

We thank you, once again, for your past assistance and hope that any future request for Town support would be considered.

Sincerely,

Peter Blue
Executive Director
